<i>About the Authors</i>	<i>xx</i>

PART 1 Beginnings 1

1 Studying Lifespan Development 3

Focusing Questions	3
The Nature of Lifespan Development	4
Multiple Domains of Development	5
Development from a Lifespan Perspective: The Example of Jodi	6
Why Study Development?	9
The Life Course in the Past	10
Early Precursors to Developmental Study	12
The Emergence of Modern Developmental Study	12
Lifespan Perspectives on Human Development	13
Continuity within Change	13
Lifelong Growth and Loss	14
Changing Meanings and Vantage Points	15
Developmental Diversity	16
Methods of Studying Lifespan Psychology	16
The Scientific Method	17
Researching Questions about Causality	18
Researching Questions about Association	23
Ethical Constraints on Studying Development	27
Strengths and Limitations of Developmental Knowledge	29
Chapter Summary	30
Key Terms	30

2 Theories of Development 31

Focusing Questions	31
The Nature of Developmental Theories	32
What Is a Developmental Theory?	32
How Do Developmental Theories Differ?	33
Psychodynamic Developmental Theories	34
Freudian Theory	35
Erikson's Psychosocial Theory	36
Applications of Psychodynamic Developmental Theories throughout the Lifespan	40
Behavioral Learning and Social Cognitive Learning Developmental Theories	40
Behavioral Learning Theories	40
Social Cognitive Learning Theory	42
Applications of Learning Theories throughout the Lifespan	43
Cognitive Developmental Theories	43
Piaget's Cognitive Theory	43
Neo-Piagetian Approaches	45
Information-Processing Theory	45
Applications of Cognitive Developmental Theories throughout the Lifespan	47
Contextual Developmental Theories	48
Applications of Contextual Developmental Theories throughout the Lifespan	48
Ethological Theory	50
Adulthood and Lifespan Developmental Theories	50
Normative-Crisis Model of Development	51
Timing-of-Events Model	52
Developmental Theories Compared: Implications for the Student	53
Chapter Summary	57
Key Terms	58

3 Genetics, Prenatal Development, and Birth 59

Focusing Questions	59
Mechanisms of Genetic Transmission	60
The Role of DNA	60
Meiosis and Mitosis	60
Individual Genetic Expression	61
Genotype and Phenotype	61
Dominant and Recessive Genes	62
Transmission of Multiple Variations	62
Polygenic Transmission	64
The Determination of Sex	64
Genetic Abnormalities	65
Disorders Due to Abnormal Chromosomes	66
Disorders Due to Abnormal Genes	69
Genetic Counseling and Prenatal Diagnosis	71
Relative Influence of Heredity and Environment	72
Key Concepts of Behavior Genetics	72
Adoption and Twin Studies	74
Cautions and Conclusions about the Influence of Heredity and Environment	76
Prenatal Development and Birth	76
Stages of Prenatal Development	76
Conception	76
The Germinal Stage (First Two Weeks)	77
The Embryonic Stage (Third Through Eighth Weeks)	77
The Fetal Stage (Ninth Week to Birth)	78
The Experience of Pregnancy	80
Prenatal Influences on the Embryo and Fetus	81
Harmful Substances, Diseases, and Environmental Hazards	81
Maternal Age and Physical Characteristics	86
Prenatal Health Care	87
Birth	88
Stages of Labor	89
Childbirth Settings and Methods	91
Problems during Labor and Delivery	95
Faulty Passenger	96
Birth and the Family	97
Looking Back/Looking Forward	97

Chapter Summary 99

Key Terms 100

PART 2 The First Two Years of Life 101

4 Physical and Cognitive Development during the First Two Years 103

Focusing Questions	103
PHYSICAL DEVELOPMENT	104
The Newborn	104
The First Few Hours	105
Is the Baby All Right? The Apgar Scale	105
Size and Bodily Proportions	106
Growth in Infancy	106
Physical Growth	106
Brain Growth	107
Infant States: Sleep and Arousal	109
Sleep	109
Parents' Response to Infant Sleep and Arousal	111
States of Arousal	112
Sensory Acuity	113
Visual Acuity	113
Auditory Acuity	114
Tactile, Taste, and Olfactory Acuity	114
Motor Development	115
The First Motor Skills	115
Cultural and Sex Differences in Motor Development	118
Nutrition during the First Two Years	119
Breast Milk versus Formula	119
Poor Nutrition	120
Overnutrition	121
Impairments in Infant Growth	121
Low-Birth-Weight Infants	121
Failure to Thrive	122
Infant Mortality	123
COGNITIVE DEVELOPMENT	124
Studying Cognition and Memory in Infants	124
Arousal and Infants' Heart Rates	125
Recognition, Memory, and Infant Habituation	125

Infant Perception and Cognition	126
Visual Perception in Infancy	126
Auditory Perception in Infancy	128
Coordination of Sensory Information	129

Cognitive Change during Infancy: Piaget's Stage Theory	130
Stages of Sensorimotor Intelligence	130
Assessment of Piaget's Theory of Infant Cognition	134

Theory of Mind	136
----------------	-----

Behavioral Learning in Infancy	136
Operant Conditioning	137
Imitation	137

Language Acquisition	138
Phonology	140
Semantics and First Words	140
Influencing Language Acquisition	141

The End of Infancy	145
--------------------	-----

Chapter Summary	145
-----------------	-----

Key Terms	146
-----------	-----

5 Psychosocial Development during the First Two Years 147

Focusing Questions	147
--------------------	-----

Early Social Relationships	149
Transition to Parenthood	149
Caregiver-Infant Synchrony	150
Social Interactions with Other Family Members	151
Interactions with Nonparental Caregivers	153
Interactions with Peers	154

Emotions and Temperament during Infancy	155
---	-----

Emotions in Infancy	155
Temperament	157

Attachment Formation	159
----------------------	-----

Phases of Attachment Formation	160
Assessing Attachment: The "Strange Situation"	161
Consequences of Different Attachment Patterns	162
Influences on Attachment Formation	164
Long-Term and Intergenerational Effects of Attachment	169

Toddlerhood and the Emergence of Autonomy	170
---	-----

Sources of Autonomy	171
Development of Self	172
Development of Competence and Self-Esteem	173

Looking Back/Looking Forward	174
------------------------------	-----

Chapter Summary	175
-----------------	-----

Key Terms	176
-----------	-----

PART 3 Early Childhood 177

6 Physical and Cognitive Development during Early Childhood 179

Focusing Questions	179
--------------------	-----

PHYSICAL DEVELOPMENT	180
----------------------	-----

Influences on Normal Physical Development	180
---	-----

Genetic Background	181
Nutritional Needs during the Preschool Years	182
Sleep during Early Childhood	182
Autism Spectrum Disorder	183

The Connection between Health and Poverty	184
---	-----

Bladder Control	186
-----------------	-----

Motor Skill Development	188
Fundamental Motor Skills	188

The Impact of Children's Growth on Adults	192
---	-----

COGNITIVE DEVELOPMENT	195
-----------------------	-----

Thinking among Preschoolers	195
-----------------------------	-----

Language Acquisition in the Preschool Years	202
---	-----

Language Variations	208
Early Childhood Education	211
From Preschooler to Child	215

Chapter Summary	215
-----------------	-----

Key Terms	216
-----------	-----

7 Psychosocial Development during Early Childhood 217

Focusing Questions	217
--------------------	-----

Relationships with Family	218
---------------------------	-----

Relationships with Parents	218
Patterns of Parental Authority	219

Relationships with Siblings	223	Attention Deficit Hyperactivity Disorder	267
Relationships in an Expanding Social World	225	Sleep	269
Empathy and Prosocial Behavior	225	COGNITIVE DEVELOPMENT	269
Conflict and Aggression	227	Piaget's Theory: Concrete Operational Skills	269
Responding to Aggressive Behavior	230	Conservation in Middle Childhood	270
The Effects of Media on Preschoolers' Development	232	Conservation Training	270
Play during Early Childhood	235	Piaget's Influence on Education	271
The Nature of Play	235	Information-Processing Skills	272
Theories of Play	236	Memory Capacity	273
Cognitive Levels of Play: Developmental Trends	238	Difficulties with Information Processing: Learning Disabilities	275
Other Influences on Play and Friendship	239	Language Development during Middle Childhood	277
Social Levels of Play	240	Bilingualism and Its Effects	277
Play and Friendship during Early Childhood	242	Defining and Measuring Intelligence	279
Gender Development	245	Psychometric Approaches to Intelligence	279
Learning Gender Schema	245	Information-Processing Approaches to Intelligence	281
Influences on Gender Development	246	The Triarchic Theory of Intelligence	281
Androgyny	248	Sociocultural Approaches to Intelligence	284
Child Abuse and Maltreatment	248	School Influences	285
Causes	249	Participation Structures and Classroom Discourse	285
Consequences	250	Social Biases That Affect Learning	287
Treatment and Prevention	251	The Impact of Assessment	287
Looking Back/Looking Forward	252	The Changing Child: Physical, Cognitive, and Social	289
Chapter Summary	253	Chapter Summary	289
Key Terms	254	Key Terms	290

PART 4 Middle Childhood 255

8 Physical and Cognitive Development in Middle Childhood 257

Focusing Questions	257
PHYSICAL DEVELOPMENT	258
Trends and Variations in Height and Weight	259
Motor Development and Athletics during Middle Childhood	260
Physical Effects of Early Athletics	261
Psychological Effects of Early Athletics	261
Health and Illness during Middle Childhood	264
Social Influences on Illness	266

9 Psychosocial Development during Middle Childhood 291

Focusing Questions	291
Psychosocial Challenges of Middle Childhood	292
The Challenge of Knowing Who You Are	292
The Sense of Self	293
The Development of Self in Childhood	293
Processes in Constructing a Self	295

The Age of Industry and Achievement	295
The Crisis of Industry	296
Achievement Motivation	296
Family Relationships	298
The Quality of Parenting and Family Life during Middle Childhood	298
The Changing Nature of Modern Families	298
Divorce and the Impact on Children	301
The Impact of Work on Families	306
Other Sources of Social Support	308
Peer Relationships	309
What Theorists Say about Peer Relationships	310
The Functions of Friends	310
The Functions of Other Peers	311
Influences on Peer Group Membership	312
Popularity and Rejection	315
Conformity to Peers	318
School Influences on Peer Relations	319
Death, Loss, and Grieving during the School Years	320
The Process of Grieving for a Childhood Loss	320
Children's Understanding of Death	321
Looking Back/Looking Forward	324
Chapter Summary	325
Key Terms	326

Health during Adolescence	337
Causes of Death among Adolescents	338
Health-Compromising Behaviors	339
Adolescent Brain Development	347
COGNITIVE DEVELOPMENT	349
Beyond Concrete Operational Thinking	349
Possibilities versus Realities	350
Scientific Reasoning	350
Logical Combination of Ideas	351
Cognitive Development beyond Formal Thought	351
Implications of the Cognitive Developmental Viewpoint	352
Moral Development: Beliefs about Justice and Care	354
Kohlberg's Six Stages of Moral Judgment	354
Issues in the Development of Moral Beliefs about Justice	356
Gilligan's Ethics of Care	357
The Ethics of Care during Adolescence	358
The Development of Social Cognition	359
Information-Processing Features of Adolescent Thought	360
Improved Capacity to Process Information	361
Expertise in Specific Domains of Knowledge	362
The Influence of School	363
Cognitive Effects of Schooling	363
Social Effects of Schooling	365
Chapter Summary	369
Key Terms	370

PART 5 Adolescence 327

10 Physical and Cognitive Development during Adolescence 329

Focusing Questions	329
PHYSICAL DEVELOPMENT	331
Growth in Height and Weight	331
Puberty	333
The Development of Primary Sex Characteristics	333
The Development of Secondary Sex Characteristics	333
Hormonal Changes: Physical and Social Consequences	334
Psychological Effects of Physical Growth in Adolescence	335

11 Psychosocial Development during Adolescence 371

Focusing Questions	371
Theories of Identity Development	372
Ruthellen Josselson: Individuation and Identity Development	372
Erik Erikson: The Crisis of Identity versus Role Confusion	374
Family Relationships during Adolescence	377
Relationships with Parents	377
Divorce, Remarriage, and Single Parenthood	383

Social Relationships during Adolescence	387
Friendship	387
Peer Groups	389
Adolescents in the World of Work	392
Sexuality during Adolescence	394
Sexual Experience	395
Sexual Orientations	397
Sex and Everyday Life	400
Special Problems of Adolescence	400
Adolescent Pregnancy and Parenthood	400
Teenage Depression and Suicide	404
Juvenile Delinquency	406
Looking Back/Looking Forward	408
Chapter Summary	410
Key Terms	411

PART 6 Early Adulthood 413

12 Physical and Cognitive Development during Early Adulthood 415

Focusing Questions	415
PHYSICAL DEVELOPMENT	416
Physical Functioning	416
Growth in Height and Weight	416
Strength	417
Brain Development	418
Age-Related Changes	418
Health during Early Adulthood	419
Health-Promoting Behaviors	420
Health-Compromising Behaviors	424
Stress	430
Stress and Health	431
The Experience of Stress	431
Sexuality and Reproduction	434
The Sexual Response Cycle	435
Sexual Attitudes and Behaviors	435
Common Sexual Dysfunctions	436
Infertility	438
Reproductive Technologies	439
Adult Choices	440
COGNITIVE DEVELOPMENT	440

Postformal Thought	441
Critiques of Formal Operations as the Final Stage of Cognitive Development	441
Development of Contextual Thinking	443
Schaie's Stages of Adult Thinking	443
Contextual Relativism	444
Adult Moral Reasoning	446
Context and Moral Orientation	448
Development of Faith	449
College	450
Who Attends College?	452
Women	452
Racial and Ethnic Minorities	453
Work	453
Transition to Work	454
Gender, Race, Sexual Orientation, Gender Identity, and SES in the Workplace	454
Growth and Change	458
Chapter Summary	458
Key Terms	459

13 Psychosocial Development during Early Adulthood 461

Focusing Questions	461
Theories of Adult Development	462
Timing of Events: Social Clocks	463
Crisis Theory: George Vaillant and the Grant Study	464
Crisis Theory: Daniel Levinson's Seasons of Adult Lives	465
Do Women Have the Same "Seasons"?	466
Crisis Theory: Erik Erikson's Intimacy Versus Isolation	466
Intimate Relationships	467
Friendship	468
Love	471
Mate Selection	475
Marriage, Divorce, Remarriage, and Singlehood	476
Marital Satisfaction	477
Divorce	480
Remarriage	481
Singlehood	482
Cohabitation	483

Parenthood	484	Racial and Ethnic Minorities	529
Transition to Parenthood	485	Gender	530
Single Parenthood	487	Sexual Orientation and Identity	530
Stepparent/Blended Families	488	Unemployment and Underemployment	530
Child Free	489		
Looking Back/Looking Forward	492	Change and Growth	531
Chapter Summary	493	Chapter Summary	531
Key Terms	494	Key Terms	532

PART 7 Middle Adulthood 495

14 Physical and Cognitive Development during Middle Adulthood 497

Focusing Questions	497
PHYSICAL DEVELOPMENT	498
The Biology of Aging	498
Physical Functioning during Middle Adulthood	500
Strength	500
External and Internal Age-Related Changes	500
Health during Middle Adulthood	502
Health and Health-Compromising Behaviors	503
Breast Cancer	505
Prostate Cancer	508
Health and Inequality	509
Reproductive Changes and Sexuality	510
Menopause	511
The Male Climacteric	513
Sexuality in Middle Adulthood	514
COGNITIVE DEVELOPMENT	516
Intelligence during Middle Adulthood	516
Does Intelligence Decline with Age?	516
Schaie's Sequential Studies	518
Fluid and Crystallized Intelligence	520
Practical Intelligence and Expertise	522
Solving Real-World Problems	523
Becoming an Expert	524
The Adult Learner	525
Adult Education	526
Returning to College	526
Work during Middle Adulthood	527
Age and Job Satisfaction	528

15 Psychosocial Development during Middle Adulthood 533

Focusing Questions	533
A Multiplicity of Images of Middle Age	534
Crisis or No Crisis?	535
Normative Crisis Models: Midlife Crisis	537
No Crisis	538
Normative Personality Change	539
Marriage and Divorce	539
Long-Term Marriage	540
The Family Life Cycle	541
Same-Sex Marriage	544
Midlife Divorce	544
Family Relationships	546
Delayed Parenthood	546
Adolescent Children	547
Young Adult Children	547
Grandparenting	551
Aging Parents	553
Siblings	554
Bereavement	556
Mourning for One's Parents	556
Bereavement and Growth	557
Reactions to Grief	557
Leisure	558
Preparing for Late Adulthood	560
Wills and Advance Directives	561
Retirement Planning	561
Looking Back/Looking Forward	562
Chapter Summary	563
Key Terms	564

PART 8	Late Adulthood	565	17	Psychosocial Development during Late Adulthood	605
16	Physical and Cognitive Development during Late Adulthood	567			
	Focusing Questions	567		Focusing Questions	605
	PHYSICAL DEVELOPMENT	568		Aging and Ageism	606
	Longevity	568		Personality Development during Late Adulthood	606
	Mortality	569		Continuity and Change in Late Life	607
	Life Expectancy	570		Integrity Versus Despair	608
	Theories of Aging	571		Theories of Successful Aging	609
	Physical Functioning during Late Adulthood	574		Retirement	612
	Slowing with Age	574		What Is Retirement?	612
	Skin, Bone, and Muscle Changes	574		Well-Being in Retirement	614
	Cardiovascular System Changes	576		Marriage and Singlehood	614
	Respiratory System Changes	576		Spouses as Caregivers	616
	Sensory System Changes	577		Widowhood	619
	Changes in Sexual Functioning	579		Dating and Remarriage	620
	Health Behaviors during Late Adulthood	579		Sexual Minorities	622
	Diet	580		Ever-Single Older Adults	623
	Exercise	582		Relationships with Family and Friends	624
	Sleep	583		Siblings	625
	Alcohol Consumption	584		Adult Grandchildren	627
	Prescription Drugs	585		Great-Grandchildren	628
	Chronic Illnesses	585		Friends	628
	Gender Differences	586		Fictive Kin	629
	Cardiovascular Disease	586		Childlessness	629
	Cancer	587		Internet and Social Media Use	630
	Arthritis	589		Problems of Living: The Housing Continuum	630
	COGNITIVE DEVELOPMENT	589		Independent Living	631
	Wisdom and Cognitive Abilities	590		Assisted Living	633
	Cognitive Mechanics	590		Long-Term Care	633
	Cognitive Pragmatics	591		Control over Living Conditions	636
	Cognitive Plasticity and Training	593		Interests and Activities	637
	The Aging Brain	595		Community Involvement	638
	Brain Changes	595		Religion and Spirituality	641
	Vascular Neurocognitive Disorder	597		Looking Back/Looking Forward	643
	Alzheimer's Disease	597		Chapter Summary	645
	Mental Health and Aging	599		Key Terms	646
	Chapter Summary	602			
	Key Terms	603			

PART 9 Endings 647

18 Dying, Death, and Bereavement 649

Focusing Questions 649

Attitudes toward Death 650

Facing One's Own Death 652

Death Acceptance 653

Late-Life Suicide 658

The Dying Process 659

The Good Death 660

Caring for the Dying 662

Terminal Care Alternatives 662

Assisted Suicide 665

Bereavement 666

Grief 667

Funeral and Ritual Practices 670

Mourning 672

Support Groups 674

Recovery 675

Looking Back 676

Chapter Summary 677

Key Terms 677

Glossary G-1
