## **PART 1** THE BUSINESS RESEARCH PROCESS AND DECISION MAKING 1

### **1** Introduction to Business Research 3

---

**The Business-Decision Environment** 4

**Business Research** 4

**Business Research and Decision Making** 5

Identify a Problem or Opportunity 5

Analyze the Problem or Opportunity 6

Identify Alternatives 6

Select an Alternative 7

**Strategic Versus Tactical Information Needs** 7

**The Nature of Business Research** 8

Business Research for Small Organizations 10

The Nature of Conventional and Unconventional Research 11

**Steps in a Business Research Project** 12

Define the Management Problem 12

Specify Research Purpose 14

State Research Objectives 15

Develop Research Design 18

Select Data-Collection Methodology 19

Determine Measurement and Data-Analysis Methods 19

Design Data-Collection Forms 19

Define Sampling Methods 20

Collect, Analyze and Interpret the Data, and Present the Results 21

**Business Information Systems** 21

*Summary* 21 ■ *Key Terms* 22 ■ *Discussion Questions* 22 ■ *Endnotes* 22

**Moral Philosophy 24**

The Rights Principle 24

Utilitarianism 24

The Justice Principle 25

Relativism 25

**Ethics in Business Research 25**

Code of Standards 26

Other Organizational Factors in Business Research 27

International Organization for Standardization 28

Institutional Review Board (IRB) 28

**Common Ethical Research Issues 31**

Beneficence 31

Informed Consent 31

Privacy and Confidentiality Rights 33

Privacy on the Web 33

Confidentiality 34

Avoiding Deception 35

Debrief 36

Natural Environments 36

Dangers of Unethical Business Research 36

Communication Problems with Clients 37

Another Employee Makes an Unethical Decision 37

Time Constraints 37

Incomplete Research 37

Client Wants Unobtainable Data 38

Making Poor Business Decisions from Faulty Data 38

**Ethical Decision Making 38***Summary 39 ■ Key Terms 39 ■ Discussion Questions 39 ■ Endnotes 39**APPENDIX: Resources for Ethics 40***PART 2 SECONDARY DATA AND RESEARCH DESIGNS**

41

**Uses of Secondary Data 44****Advantages of Secondary Data 44**

## **Disadvantages of Secondary Data 45**

### **Secondary Data Sources 45**

- Secondary Data Sources on the World Wide Web 47
- Syndicated Data Sources 49
- Consumer Data Sources 49
- Company Data Sources 50
- Market Data Sources 51
- Cost Data Sources 54
- General Advice 54

*Summary 55 ■ Key Terms 55 ■ Discussion Questions 55 ■ Endnotes 55*

# **4**

## **Research Designs: Exploratory and Qualitative Research**

**57**

### **Types of Research Designs 58**

#### **Exploratory Research 59**

#### **Tools Used to Conduct Exploratory Research 60**

- Explanation of the Qualitative Research Process 61
- Qualitative versus Quantitative 61
- Designing the Qualitative Study 63
- Qualitative Research Methods 64
- The Value of Exploratory Research 73

*Summary 74 ■ Key Terms 74 ■ Discussion Questions 75 ■ Endnotes 75*

# **5**

## **Research Designs: Descriptive and Causal Research**

**77**

### **Descriptive Research 78**

- Cross-Sectional Designs 80
- Longitudinal Studies 81

### **Causal Research 82**

#### **Experimentation 84**

- What Is Experimentation? 84
- The Terminology of Experimentation 85
- Validity and Experimentation 86
- Field versus Laboratory Experiments 87
- Experimental Design Symbols 87
- Ethics and Experimentation 88
- Experimental Research Designs 88
- Limitations of Causal Research 90
- Ex Post Facto Research 90
- Test Marketing 91

#### **Exploratory, Descriptive, or Causal Observation 93**

#### **Dangers of Defining Design by Technique 94**

*Summary 95 ■ Key Terms 95 ■ Discussion Questions 95 ■ Endnotes 96*

## 6

## Measurement

99

**Introduction 100****The Process of Measurement 101**

Step 1: Determine the Construct(s) of Interest 102

Step 2: Specify the Construct's Domain 102

Step 3: Establish Operational Definitions 103

Step 4: Collect Data to Test Measures 104

Step 5: Purify the Measures 105

Step 6: Conduct Validity Tests 105

Step 7: Analyze Research Findings 105

Commentary on the Measurement Process 105

**What Is to Be Measured? 106****Who Is to Be Measured? 107****How to Measure What Needs to Be Measured 108**

The Nominal Scale 108

The Ordinal Scale 108

The Interval Scale 108

The Ratio Scale 109

**Assessing Reliability and Validity of Our Measures 109**

Reliability 110

Validity 111

Commentary on Reliability and Validity 112

**Measuring Psychological Variables 113**

Attitude Measurement 113

Itemized Rating Scales 117

Examples of Itemized Rating Scales 117

Rank-Order Scales 119

Comparative Rating Scales 120

Semantic Differential Scales 120

Stapel Scales 121

Commentary on Scales 121

*Summary 122 ■ Key Terms 122 ■ Discussion Questions 122 ■ Endnotes 123*

## 7

## Primary Data Collection

125

**Sources of Primary Data 126****Types of Primary Data 127**

Demographic and Socioeconomic Data 127

Attitudes 127

Psychographics and Lifestyle Data 128

Intentions 128

Awareness and Knowledge 128

Motivations 128

Behaviors 129

## **Methods of Collecting Primary Data 129**

Choosing Between Observation and Communication Methods 129

## **Communication Methods 131**

Exploratory Communication—Focus Group Interviewing 131

Descriptive Communication—Survey Research 133

## **Survey Methods 133**

Telephone Interviewing 133

Mail Surveys 135

Personal Interviewing 136

Computer or Fax Survey 137

## **Observation Methods 140**

*Summary 141 ■ Key Terms 141 ■ Discussion Questions 142 ■ Endnotes 142*

# **8**

## **Designing the Data-Gathering Instrument**

**143**

### **Goals of a Questionnaire 146**

Contextualize the Information Collected 146

Express the Study Objectives in Question Form 146

Measure the Attitude, Behavior, Intentions, Attributes, or Other Characteristics of the Respondent 146

Create Harmony and Rapport with the Respondent 146

Provide Just the Right Amount of Information: No More, No Less 146

### **Classification of Questions 147**

Structured-Undisguised Questions 147

Structured-Disguised Questions 147

Unstructured-Undisguised Questions 148

Unstructured-Disguised Questions 148

### **Designing a Questionnaire 149**

Determine the Specific Information Needed 150

Identify the Sources 150

Choose the Method of Administration 150

Determine the Types of Questions 150

Develop the Specific Questions 152

Determine Question Sequence and Length of the Questionnaire 153

Predetermine Coding 153

Pretest the Questionnaire 154

Review and Revise the Questionnaire 154

*Summary 154 ■ Discussion Questions 154 ■ Endnotes 155*

**What Is Sampling? 158****Why Sampling? 158****Sampling Error, Sample Bias, and Nonsampling Error 159**

Sampling Error 159

Sample Bias 159

Nonsampling Error 160

**Sampling Decision Model 160**

Step 1: Define the Population or Universe 160

Step 2: Determine the Sampling Frame 161

Step 3: Select the Sampling Method 162

Step 4: Determine Sample Size 166

Step 5: Select the Sample 171

**What Is a Significant Statistically Significant Difference? 172***Summary 172 ■ Key Terms 172 ■ Discussion Questions 172 ■ Endnote 172***Planning 174**

Budgets 174

Staffing 174

**Guidelines for Interviewers 174****Types of Interviews 175**

Personal Interviews 175

Telephone Interviews 176

Mail Surveys 176

Internet Surveys 176

**The Interviewing Relationship 177**

Cooperation 177

Rapport 178

**The Interviewing Situation 178**

The Approach 178

Qualified Respondent 178

**The Actual Interview 179**

The Questionnaire 179

Legibility 179

Asking the Questions 180

Record the Response Verbatim 180

“X” or Circle, Not a Check 181

Interviewer Attitude 181

## **Closure 181**

Classification, Demographic, and Statistical Information 181

Validation 181

## **Fielding a Research Project 182**

Security of the Survey 182

Briefings 182

Supervisor Assistance 182

Do Not Interview Friends or Acquaintances 182

Adhere to the Study Specifications 182

Follow All Study Procedures and Instructions 182

Accurate Record Keeping 183

Complete Assignments on Time 183

Work Efficiency 183

Probing 183

Sequencing of Contact Methods 184

## **Errors in Data Collection 185**

### **Types of Nonsampling Errors 186**

Sampling Frame Errors 187

Nonresponse Errors 187

Data Errors 188

*Summary 189 ■ Key Terms 189 ■ Discussion Questions 190 ■ Endnotes 190*

## **PART 4 DATA ANALYSIS AND REPORTING**

191

# 11

## **Analyzing and Interpreting Data for Decisions**

193

### **From Data to Decisions 194**

#### **Data Summary Methods 197**

Developing a Plan of Analysis 197

Frequency Distributions 198

Central Tendency and Dispersion Measures 200

#### **Cross-Tabulation 202**

Setting Up Cross-Tabulation Tables 203

Choosing Variables for Cross-Tabulations 205

Interpreting Cross-Tabulations 206

Three-Way Cross-Tabulation 207

Statistical Significance in Cross-Tabulation 208

#### **Advanced Analytical Techniques 208**

Correlation 209

*Summary 209 ■ Key Terms 209 ■ Discussion Questions 209 ■ Endnotes 209*

## 12 Analyzing Qualitative and Big Data

211

### **Characteristics 212**

Theoretical Approaches and Methods 212

### **Analysis and Interpretation 213**

Step 1: Process and Record Data Immediately 215

Step 2: Begin Analyzing as Data Is Being Collected 215

Step 3: Data Reduction 215

Step 4: Identifying Meaningful Patterns or Themes and Drawing Conclusions 215

Step 5: Verification 218

### **Big Data 218**

*Summary 220 ■ Key Terms 220 ■ Discussion Questions 220 ■ Endnotes 221*

## 13 Advanced Data Analysis

223

### **Business Research and Statistical Analysis 224**

### **Hypothesis Testing 225**

Step 1: Stating the Hypotheses and Decisions 226

Step 2: Determine the Costs of Decision Errors 226

Step 3: Setting a Significance Level 227

Step 4: Collect the Data and Conduct Statistical Tests 228

Step 5: Compare Results to the Null Hypothesis and Make a Decision 228

Analysis of Variance (ANOVA) 229

Concluding Thoughts on Hypothesis Testing 230

### **Measures of Association 231**

Bivariate Association 231

*Summary 237 ■ Key Terms 237 ■ Discussion Questions 237 ■ Endnotes 237*

## 14 The Research Report

239

### **Introduction 240**

### **Report Format 240**

Title Page 241

Table of Contents 241

Introduction and Research Objectives 241

Research Methodology 241

Executive Summary 241

Findings 241

Conclusions and Recommendations 242

Supporting Documentation (Appendices)	242
