Preface xiv

About the Authors xx

1 The Nature of Psychology 1

The Historical Context of Psychology 2

- The Roots of Psychology 2
- The Founding Schools of Psychology 5
- The Growth of Psychology 8

Contemporary Perspectives in Psychology 13

- The Humanistic Perspective 13
- The Cognitive Perspective 14
- The Biopsychological Perspective 14
- The Sociocultural Perspective 16

The Scope of Psychology 17

- Academic Fields of Specialization 18
- Professional Fields of Specialization 19

Chapter Summary 22 Key Terms 22

Chapter Quiz 23 Thought Questions 24

2 Psychology as a Science 25

Sources of Knowledge 25

- Common Sense 25
- Science 27

Goals of Scientific Research 30

- Description 30
- Prediction 31
- Control 32
- Explanation 32

Methods of Psychological Research 33

- Descriptive Research 33
- Correlational Research 38
- Experimental Research 39

Statistical Analysis of Research Data 46

- Descriptive Statistics 46
- Correlational Statistics 48
- Inferential Statistics 49

Ethics of Psychological Research 52

- Ethical Treatment of Research Data 52
- Ethical Treatment of Human Participants 52
- Ethical Treatment of Animal Subjects 54

Chapter Summary 56 Key Terms 57

Chapter Quiz 57 Thought Questions 59

3 Biopsychological Bases of Behavior 60

Nature versus Nurture 61

- Evolutionary Psychology 62
- Behavioral Genetics 62

Biological Communication Systems 67

- The Nervous System 67
- The Endocrine System 68

Neuronal Activity 71

- The Structure of the Neuron 72
- The Neural Impulse 72
- Synaptic Transmission 75

Brain Functions 80

- Techniques for Studying Brain Functions 80
- Functional Organization of the Brain 84
- Cerebral Hemispheric Lateralization 93
- Neural Plasticity 99

Chapter Summary 103 Key Terms 104

Chapter Quiz 105 Thought Questions 106

4 Human Development 107

Research Methods in Developmental Psychology 108

- Longitudinal Research 108
- Cross-Sectional Research 109
- Cohort-Sequential Research 109

Prenatal Development 110

- The Germinal Stage 110
- The Embryonic Stage 110
- The Fetal Stage 111

Infant and Child Development 112

- Physical Development 112
- Perceptual Development 113
- Cognitive Development 114
- Psychosocial Development 118

Adolescent Development 129

- Physical Development 129
- Cognitive Development 131
- Psychosocial Development 132

Adult Development 136

- Physical Development 136
- Cognitive Development 137
- Psychosocial Development 141

Chapter Summary 147 Key Terms 148
Chapter Quiz 149 Thought Questions 150

5 Sensation and Perception 151

Sensory Processes 152

- Sensory Thresholds 152
- Sensory Adaptation 155

Visual Sensation 156

- Light Waves 156
- Vision and the Eye 157
- Vision and the Brain 160
- Basic Visual Processes 160

Visual Perception 165

- Form Perception 165
- Depth Perception 167
- Perceptual Constancies 169
- Visual Illusions 171
- Experience, Culture, and Perception 173

Hearing 174

- Sound Waves 175

- The Auditory System 175
- Auditory Perception 177

Chemical Senses 181

- Smell 181
- Taste 183

Skin Senses 184

- Touch 184
- Pain 185

Body Senses 188

- The Kinesthetic Sense 188
- The Vestibular Sense 189

Extrasensory Perception 190

- Alleged Paranormal Abilities 191
- Problems with Paranormal Research 192
- The Status of Parapsychology 193

Chapter Summary 194 Key Terms 195
Chapter Quiz 196 Thought Questions 197

6 Consciousness 198

The Nature of Consciousness 199

- The Stream of Consciousness 199
- Attention 200
- The Unconscious 201

Sleep 204

- Biological Rhythms and the Sleep-Wake Cycle 204
- Patterns of Sleep 205
- The Functions of Sleep 209
- Sleep Disorders 211

Dreams 214

- The Content of Dreams 215
- The Purpose of Dreaming 217

Hypnosis 219

- Hypnotic Induction and Susceptibility 220
- Effects of Hypnosis 221
- The Nature of Hypnosis 222

Psychoactive Drugs 224

- Depressants 227
- Stimulants 228
- Other Psychoactive Drugs 230
- Entactogens 232

Chapter Summary 234 Key Terms 234
Chapter Quiz 235 Thought Questions 236

7 Learning 237

- Classical Conditioning 238**
 - Principles of Classical Conditioning 239
 - Applications of Classical Conditioning 242
 - Biological Constraints on Classical Conditioning 246
- Operant Conditioning 247**
 - Principles of Operant Conditioning 247
 - Applications of Operant Conditioning 255
 - Biological Constraints on Operant Conditioning 259
- Cognitive Learning 260**
 - Cognitive Factors in Associative Learning 261
 - Latent Learning 262
 - Observational Learning 263

Chapter Summary 266 Key Terms 267
Chapter Quiz 267 Thought Questions 269

8 Memory 270

- Information Processing and Memory 271**
- Sensory Memory 272**
- Short-Term Memory 273**
- Long-Term Memory 276**
 - Encoding 276
 - Storage 278
 - Retrieval 281
 - Forgetting 283
- Memory, Forgetting, and Eyewitness Testimony 290**
 - Children as Eyewitnesses 291
 - Questioning the Eyewitness 294
- Improving Your Memory 294**
 - Using Effective Study Habits 294
 - Using Mnemonic Devices 296
- The Biopsychology of Memory 298**
 - The Neuroanatomy of Memory 298
 - The Neurochemistry of Memory 301

Chapter Summary 304 Key Terms 305
Chapter Quiz 306 Thought Questions 307

9 Thought and Language 308

- Thought 309**
 - Concept Formation 310
 - Problem Solving 312
 - Creativity 316
 - Decision Making 320
 - Artificial Intelligence 322
- Language 324**
 - The Structure of Language 326
 - The Acquisition of Language 328
 - The Relationship Between Language and Thought 332
 - Language in Apes 335

Chapter Summary 339 Key Terms 340
Chapter Quiz 341 Thought Questions 342

10 Intelligence 343

- Intelligence Testing 345**
 - The History of Intelligence Testing 345
 - Standardization in Intelligence Testing 347
- Extremes of Intelligence 351**
 - Intellectual Disabilities 351
 - Mental Giftedness 355
- Theories of Intelligence 357**
- Factor-Analytic Theories of Intelligence 357**
- Sternberg's Triarchic Theory of Intelligence 360**
- Gardner's Theory of Multiple Intelligences 360**
- Nature, Nurture, and Intelligence 362**
 - Early Studies of Women 362
 - Early Studies of Immigrants 363
 - The Influence of Heredity and Environment on Intelligence 364

Chapter Summary 371 Key Terms 372
Chapter Quiz 372 Thought Questions 374

11 Motivation 375

- The Nature of Motivation 376**
 - Sources of Motivation 376
 - Maslow's Hierarchy of Needs 378

The Hunger Motive	379
The Physiology of Hunger	379
Obesity	381
Eating Disorders	385
The Sex Motive	389
Biopsychological Factors in Sexual Behavior	390
Psychosocial Factors in Sexual Behavior	391
Sexual Dysfunctions	393
Gender Identity	394
Sexual Orientation	395
The Arousal Motive	399
Optimal Arousal	399
Sensory Deprivation	400
Sensation Seeking	401
The Achievement Motive	402
Need for Achievement	403
Goal Setting	404
Intrinsic Motivation	404
The Role of Motivation in Sport	406
The Arousal Motive and Sport	406
The Achievement Motive and Sport	407
<i>Chapter Summary 409 Key Terms 410</i>	
<i>Chapter Quiz 411 Thought Questions 412</i>	

12 Emotion 413

The Biopsychology of Emotion	414
The Autonomic Nervous System and Emotion	414
The Brain and Emotion	415
The Chemistry of Emotion	420
The Expression of Emotion	422
Vocal Qualities and Emotion	422
Body Movements and Emotion	423
Facial Expressions and Emotion	423
The Experience of Emotion	426
Happiness	427
Humor	429
Theories of Emotion	431
Biopsychological Theories of Emotion	432
The Facial-Feedback Theory of Emotion	434
Cognitive Theories of Emotion	436
<i>Chapter Summary 440 Key Terms 440</i>	
<i>Chapter Quiz 441 Thought Questions 442</i>	

13 Personality 443

The Psychoanalytic Approach to Personality	444
Freud's Psychosexual Theory	444
Adler's Theory of Individual Psychology	447
Horney's Theory of Feminine Psychology	449
Jung's Theory of Analytical Psychology	449
Psychoanalytic Assessment of Personality	450
Status of the Psychoanalytic Approach	451
The Dispositional Approach to Personality	452
Type Theories	452
Trait Theories	454
Dispositional Assessment of Personality	455
Status of the Dispositional Approach	457
The Cognitive-Behavioral Approach to Personality	460
Social-Cognitive Theory	460
Schema Theory	461
Cognitive-Behavioral Assessment of Personality	462
Status of the Cognitive-Behavioral Approach	463
The Humanistic Approach to Personality	465
The Self-Actualization Theory of Personality	466
The Self Theory of Personality	467
The Humanistic Assessment of Personality	468
Status of the Humanistic Approach	469
The Biopsychological Approach to Personality	470
The Relationship Between Physique and Personality	471
The Relationship Between Heredity and Personality	473
Biopsychological Assessment of Personality	473
Status of the Biopsychological Approach	474
<i>Chapter Summary 476 Key Terms 477</i>	
<i>Chapter Quiz 478 Thought Questions 479</i>	

14 Psychological Disorders 480

Characteristics of Psychological Disorders	480
Criteria for Psychological Disorders	481
Viewpoints on Psychological Disorders	482
Classification of Psychological Disorders	488
Anxiety Disorders	489
Generalized Anxiety Disorder	491
Panic Disorder	492
Phobias	494
Obsessive-Compulsive Disorder	496
Characteristics of Obsessive-Compulsive Disorder	497
Causes of Obsessive-Compulsive Disorder	497
Somatic Symptom and Related Disorders	498
Illness Anxiety Disorder	498
Conversion Disorder	499
Dissociative Disorders	500
Dissociative Amnesia and Fugue	500
Dissociative Identity Disorder	501
Major Depressive Disorder and Related Disorders	503
Major Depressive Disorder	503
Seasonal Affective Disorder	506
Suicide and Major Depressive Disorder	508
Bipolar Disorder	509
Characteristics of Bipolar Disorder	510
Causes of Bipolar Disorder	510
Schizophrenia	511
The Nature of Schizophrenia	512
Causes of Schizophrenia	513
Personality Disorders	517
Borderline Personality Disorder	518
Antisocial Personality Disorder	519
Developmental Disorders	520
Autism Spectrum Disorder (ASD)	521
Attention Deficit Hyperactivity Disorder (ADHD)	522

Chapter Summary 525 *Key Terms* 526
Chapter Quiz 527 *Thought Questions* 528

15 Therapy 529

The History of Therapy	530
Ancient Practices	530
Medieval and Renaissance Approaches	530
18th- and 19th-Century Reforms	530
The Mental Health Movement	531
The Psychoanalytic Orientation	532
The Nature of Psychoanalysis	532
Techniques in Psychoanalysis	532
Offshoots of Psychoanalysis	533
The Behavioral Orientation	533
Classical Conditioning Therapies	534
Operant-Conditioning Therapies	536
Social-Learning Therapies	538
The Cognitive Orientation	538
Rational-Emotive Behavior Therapy	538
Cognitive Therapy	540
The Humanistic Orientation	540
Person-Centered Therapy	540
Gestalt Therapy	541
The Social-Relations Orientation	542
Group Therapy	542
Family Therapy	543
The Biological Orientation	544
Psychosurgery	544
Electroconvulsive Therapy	545
Drug Therapy	546
Community Mental Health	548
Deinstitutionalization	548
Prevention of Psychological Disorders	548
The Rights of the Therapy Client	549
The Rights of Hospitalized Patients	549
The Right to Confidentiality	550
Finding the Proper Therapy	551
Selecting the Right Therapist	551
Bibliotherapy as an Alternative	552
The Effectiveness of Psychotherapy	552
Evaluation of Psychotherapy	553
Factors in the Effectiveness of Psychotherapy	554

Chapter Summary 557 *Key Terms* 558
Chapter Quiz 559 *Thought Questions* 560

16 Psychology, Health, and Stress 561

Psychological Stress and Stressors 562

- Life Changes 562
- Daily Hassles 564

The Biopsychology of Stress and Illness 566

- General Adaptation Syndrome 567
- Stress and Cardiovascular Disease 567
- Stress and Immune Functioning 570
- Stress and Cancer 573

Factors That Moderate the Stress Response 574

- Physiological Reactivity 574
- Cognitive Appraisal 575
- Explanatory Style 575
- Perceived Control 576
- Psychological Hardiness 577
- Social Support 578

Coping with Stress 579

- Emotional Release and Stress
Management 580
- Stress-Inoculation Training 580
- Exercise and Stress Management 580
- Relaxation and Stress Management 581

Health-Promoting Habits 582

- Practicing Safe Sex 582
- Keeping Physically Fit 583
- Maintaining a Healthy Diet and Body
Weight 585
- Avoiding Tobacco Products 586

Reactions to Illness 588

- Seeking Treatment for Health
Problems 588
- Relieving Patient Distress 589
- Encouraging Adherence to Medical
Regimens 590

Chapter Summary 592 *Key Terms* 592

Chapter Quiz 592 *Thought Questions* 594

17 Social Psychology 595

Social Cognition 596

- Causal Attribution 596
- Person Perception 598

Interpersonal Attraction 601

- Liking 601
- Romantic Love 603

Attitudes 606

- The Formation of Attitudes 607
- The Art of Persuasion 608
- Attitudes and Behavior 610
- Prejudice 612

Group Dynamics 615

- Group Decision Making 615
- Group Effects on Performance 617
- Social Influence 619

Aggression 622

- Theories of Aggression 622
- Group Violence 625

Prosocial Behavior 626

- Altruism 626
- Bystander Intervention 627

Chapter Summary 631 *Key Terms* 632

Chapter Quiz 632 *Thought Questions* 634

Subject Index I-32

Boxed Features

Critical Thinking About Psychology

- Does Melatonin Have Beneficial Physical and Psychological Effects? 26
- What Can We Infer from the Size and Shape of the Brain? 82
- Are There Significant Psychological Gender Differences? 138
- Can We Be Controlled by Subliminal Messages? 155
- Does Television Influence Children's Behavior? 264
- Should We Trust "Recovered Memories" of Childhood Abuse? 287
- How Should We Respond to *The Bell Curve*? 364
- Is There a Gay Brain? 397
- Do Lie Detectors Tell the Truth? 416
- How Effective Is Psychological Profiling in Identifying Criminals? 464
- Does the Insanity Defense Let Many Violent Criminals Escape Punishment? 486

Psychology versus Common Sense

- Can We Reliably Detect When Someone Is Drunk? 28
- Is Being Left-Handed a Pathological Condition? 96
- Can Baseball Batters Really Keep Their Eyes on the Ball? 162
- Is Sleep Necessary for Good Health? 212
- Can Leading Questions Alter Our Memories of Vivid Events? 292
- Can Rewarding Creative Behavior Inhibit Creativity? 318
- Are Faster Brains More Intelligent Brains? 358
- Will Rewarding a Behavior Always Increase Our Desire to Perform It? 405
- Do Emotional Experiences Depend on Physical Responses to Emotional Situations? 433
- Is Personality Consistent from One Situation to Another? 458
- Can Mentally Healthy People Be Recognized in a Mental Hospital? 490

The Research Process

- Can Experimenter Expectancies Affect the Behavior of Laboratory Rats? 44
- Has Evolution Influenced Gender Differences in Romantic Jealousy? 63
- When Do Infants Develop Depth Perception? 116

- Are There Cultural Differences in the Painfulness of Childbirth? 187
- Is Hypnosis an Altered State of Consciousness? 224
- Can Classical Conditioning Help Maintain the Appetites of Children Undergoing Chemotherapy? 245
- Do We Form Sensory Memories of All the Information That Stimulates Our Sensory Receptors? 274
- Does Language Influence Children's Conceptions of Gender Roles? 334
- What Is the Fate of Childhood Geniuses? 356
- How Satisfied Are Men and Women with Their Bodies? 386
- Do Emotions Depend on Our Attribution of a Cause for Our Physiological Arousal? 437
- How Similar Are the Personalities of Identical Twins Reared Apart? 474
- Are People Who Ruminates About Their Problems More Likely to Develop Major Depressive Disorder? 507
- Do Endorphins Mediate the Effect of Systematic Desensitization on Phobias? 536
- Can the Immune Response Be Altered by Classical Conditioning? 573
- Would You Harm Someone Just Because an Authority Figure Ordered You To? 622

Experiencing Psychology

- What Are the Locations and Functions of Brain Structures? 103
- An Analysis of Children's Toys 147
- A Personal Study of Sleep and Dreams 233
- Shaping the Professor's Behavior—A Case Study 265
- Does the Pegword Method Improve Memory Performance? 304
- Will the Replication of a Classic Research Study on Mental Sets Produce Similar Findings Today? 338
- What Would You Include in an IQ Test? 371
- Can Mental Imagery Improve Sport Performance? 409
- Are Humorous Professors More Effective Teachers? 439
- Are Amazing Similarities in Personality Just the Result of Coincidence? 476
- How Do the Media Portray Psychological Disorders? 525
- How Do the Media Portray Drug Therapy? 557
- Increasing Exercise Adherence 591
- A Study of Personal Advertisements 630

Gender/Diversity and Biopsychology Coverage

Gender/Diversity Coverage

Chapter 1

Women's role in history of psychology 8
Cross-cultural, cultural, and ethnic psychology and issues 16

Chapter 2

Interpretation of group differences and individual differences 51–52

Chapter 3

Gender differences and similarities in jealousy (with acknowledgment of cultural factors) (The Research Process feature) 63
Gender similarities in prolactin secretion of expectant parents 69
Cultural factors in handedness 94–97
Gender differences in cerebral lateralization 94, 95

Chapter 4

Sociocultural factors in teratogens 111–112
Cross-cultural differences and similarities in correlates of attachment 119–121
Paternal attachment 120
Cross-cultural factors influencing nature of parenting behaviors 122
Gender, culture, and childhood friendship 124
Cultural similarities in familial conflict 123–124
Ethnic identity 133–134
Relationship dissolution among heterosexual, gay, and lesbian couples 143–144

Chapter 5

Color-blindness as sex-linked trait 165
Cross-cultural and gender differences in olfaction 181

Chapter 6

Cross-cultural similarities in sleep deficit (with mention of gender) 207–209
Gender and ethnic differences in sleep cycle 208

Chapter 8

Study of Turkish residents who had/had not experienced Marmara earthquake 270

Effect of gender schemas on memory 281
Cross-cultural differences and similarities in eyewitness testimony 291
Gender differences in emotional memory 299
Research on effect of estrogen and testosterone on age-related memory deficits 303

Chapter 9

Cross-cultural research on perception of click consonants 326
Cognitive linguistics and cross-cultural variation in language 334
Hyde's research on nonsexist language (The Research Process feature) 334

Chapter 10

Sociohistorical influences on gifted women (The Research Process feature) 356
Early studies of gender differences in intelligence 362–363

Chapter 11

Chapter-opening story of Mother, a sexual minority 375–376
Gender, ethnicity, and sexual orientation—differences and similarities in prevalence of eating disorders 387–389
Study of gender identity 394–395
Cultural factors influencing sexual orientation (including gender) 394–398

Chapter 12

Cross-cultural differences in emotional expression 422
Gender stereotypes and perceived gender differences in emotionality 424–425
Gender differences in smiling 424–425
Cross-cultural differences in experience of positive and negative emotions 434

Chapter 13

Cross-cultural research on five-factor theory 454–455
Collective efficacy 461
Gender and cross-cultural differences in self-esteem 468

Chapter 14

Sociocultural influences on psychological disorders 485–487
Gender and cross-cultural differences/similarities in generalized anxiety disorder 491

Gender and cross-cultural differences/similarities in panic disorder 492–493
Gender and cross-cultural differences/similarities in phobias 494–496
Gender and cross-cultural differences/similarities in obsessive-compulsive disorder (OCD) 497
Gender and cross-cultural differences/similarities in somatic symptom and related disorders 498–500
Gender and ethnic differences in major depressive disorder 503–506
Cross-cultural research on attributional model of major depressive disorder 504–506
Cultural influences on major depressive disorder 504–506
Gender differences in suicide 508–509
Gender differences in bipolar disorder 510
Cross-cultural differences in course of schizophrenia 512–513
Gender differences in antisocial personality disorder 519

Chapter 15

Cultural competence in psychotherapy 531
Ethnic match in psychotherapy 555

Chapter 16

Gender and ethnic differences in life events 562–563
Tend-and-befriend response 566
Poverty and learned helplessness 576
Gender and cross-cultural differences in the expressed need for social support 578–579
Gender differences in smoking relapse 587
Gender, ethnic differences in use of health care delivery system 588–589

Chapter 17

Gender differences in evaluation of self-handicappers 598–599
Gender and first impressions (handshakes) 599
Cross-cultural differences in romantic love 603–604
Influence of gender and sexual orientation in mate selection (also Experiencing Psychology feature) 606, 630
Conformity and cultural values related to uniqueness 619–620
Gendered aggression 622–625

Biopsychology Coverage

Chapter 2

Effect of melatonin vs. placebo on sleep 40

Chapter 3

Possible evolutionary basis of gender differences in romantic jealousy (The Research Process feature) 63
Shared historical context of Galvani's views on the electrical nature of neural conduction and Mary Shelley's use of "galvanism" in *Frankenstein* 73

Otto Loewi's discovery of the chemical basis of neural transmission in a dream 76
Whether left-handedness is a pathological condition (Psychology versus Common Sense feature) 96–97
Neural plasticity, including neural transplantation 99–102

Chapter 4

Research study indicating that fetuses form memories of smells experienced in the womb 114

Chapter 5

Case of a man who mistook his wife for a hat as an example of sensation vs. perception 151–152
Pupil dilation as a measure of snake phobia 157–158
Prosthetic vision via direct stimulation of the visual cortex 160
Sign language activating the auditory cortex of "listeners" deaf since birth 177
Effects of listening to personal stereos and rock concerts on hearing loss (Meyer-Bisch, 1996) 179
Research indicating that our response to the sound of a fingernail scratching on a blackboard might be genetically based because that sound is similar to the warning cry of a macaque monkey 180
A basis for the incest taboo based on the aversion of fathers and daughters and brothers and sisters to each others' odors 182
MRI study indicating that simply anticipating pain activates pain-relevant brain regions 186

Chapter 6

Superiority of phase delay to phase advance in rotating shifts 205
Beneficial effects of sleep on the immune response (Psychology versus Common Sense feature) 212
Positive effect of REM sleep on memory 218–219
Research study indicating that hypnosis might not be an altered state of consciousness (The Research Process feature) 224

Chapter 7

Conditioned taste aversion to prevent coyotes from killing sheep 237–238
Use of classical conditioning in the control of nocturnal enuresis 240–241
Role of classical conditioning in drug overdoses 243–244
Classical conditioning to help children undergoing chemotherapy maintain their appetites (The Research Process feature) 245

Chapter 8

Marijuana and state-dependent memory 289–290
Controversy over research on the chemical transfer of memories 301
Role of NMDA receptors in rats' recognition of the smell of other rats' breath 302

Chapter 10

- Role of heredity in intelligence of identical twins reared as fraternal and fraternal twins reared as identical 366
- Role of heredity in intelligence of “virtual twins” 366–367

Chapter 11

- Role of heredity in dietary preferences of identical twins reared apart 379
- Inhibitory effect of cholecystokinin on hunger 380
- Research study on World War II famine, showing role of early nutrition in later body weight 383–384
- Gender differences in body images (The Research Process feature) 386
- Changes in sexual values as indicated by publication of article submitted in 1899 in 1983 issue of the *Journal of the American Medical Association* 392
- Penis size differences between gay and straight men, indicating possible role of hormones in sexual orientation 396
- The “gay brain” (Critical Thinking About Psychology feature) 397
- Role of optimal arousal in playing basketball 406–407

Chapter 12

- The validity of the lie detector (Critical Thinking About Psychology feature) 416–418
- Effect of lateralized brain damage on positive and negative emotions 419–420
- Hemispheric specialization for positive and negative emotions in infants 420
- Role of endorphins in emotional experience of music-concert audience members 421

Role of right hemisphere in the emotional tone of speech, using the Wada test 422

Role of body movements in the perception of emotion, using lights on body joints in the dark 423

Facial-feedback theory of emotion 434–435

Chapter 13

Personality similarities in identical twins reared apart (The Research Process feature) 474

Chapter 14

Why a viral explanation of schizophrenia might explain why one identical twin may be afflicted and the other not 515

Role of lateral ventricles in schizophrenia from meta-analysis of MRI studies 516

Chapter 15

Role of endorphins in systematic desensitization (The Research Process feature) 536

Chapter 16

Effects of hassles and uplifts on the immune response 564–565

Classical conditioning of the immune response (The Research Process feature) 573

Effect of social support on the immune response of students undergoing exam stress 578

Effect of writing about emotional issues on the immune response 580

Effect of exercise on health in students under stress 580
